The above apps are available to download for FREE for customers who have purchased a new iPad air as part of a special promotion by Apple.

Area	App	Price	Description
P/L	Keynote	 \$12.99	Apple's version of PowerPoint. This app is perfect for displaying information for presentations/slideshows. There are preloaded templates, or you can create your own.
P/L	Pages	 \$12.99 NB: (Only download if free.)	Apple's version of word/publisher. This app is perfect for displaying information in a creative way. There are preloaded templates, or you can create your own document from scratch.
M	Numbers	 \$12.99 NB: (Only download if free.)	Is Apple's version of excel. Perfect for organising data, summarising and creating graphs and charts.
L	iBooks	 FREE	Is essentially a virtual library. Users can download iBooks, or PDF files and use this app to read them, or publish them for other iBooks users to download.
L	BookWriter	 \$6.49	This app is fantastic for creating interactive books. Pictures, text and sound can be added to each page to create visually stunning books that can be uploaded into iBooks.
P	iPhoto	 \$6.49 NB: (Only download if free.)	Is an app by Apple that categorises and files photos into folders. Users can use the app to edit, apply photo filters and to create photo books.
P	iMovie	 \$6.49	Allows users to record video footage and then use different tools to compile their own movies or trailers for advertising.
P	GarageBand	 \$6.49 NB: (Only download if free.)	An interactive music-making app that allows users to ignite their imagination to create their own melodies. With a recording feature and pre loaded beats to get started.
P	APS	 FREE	Stay connected with information, newsletters and events that are happening at our wonderful school. There are direct links to our Facebook page, and website.
P/L/M	ShowMe	 FREE	Users are able to record 'real-time' audio and visual to explain or 'show' thinking and learning taking place.
P/L/M	NearPod	 FREE	Offers access to thousands of lessons and interactive activities to engage students in a range of subject areas. Teachers can log in to students iPads to see their learning taking place.
P	Class Dojo	 FREE	Is a behaviour monitoring and reward app. Parents, teachers and students are able to log in and see how their behaviour is progressing during the day with graphs and points systems.

	App		Price	Description
S	Phonics Under The Big Top		\$2.49	This app teaches the Jolly Phonics approach to learning letters, sounds and spelling combinations. There is handwriting practice and interactive lessons to complete.
L/S	Oz Phonics 1		\$3.79	OzPhonics1 teaches beginning and ending sounds, rhyming words and tests students by getting them to determine missing sounds in words.
L/S	Oz Phonics 2		\$3.79	OzPhonics2 builds on basic skills learnt from the other Oz Phonic apps to teach about consonant/vowel/consonant words, blends, sentence structure, word finder and missing blends.
L/S	Oz Phonic IntroToReading		\$1.99 (Prep)	Oz Phonics will help students to recognise letters and their matching sounds. There are many interactive activities that build on skills learnt to extend understanding of spelling.
L/W	Storylines for Schools		FREE	Is a fun story writing app that is like the game 'telephone.' Each student adds their own part to the story by writing a sentence or picture, without knowing what the other person has done.
M	Calculator for iPad		FREE	This is a calculator that has all the functions needed for Primary School mathematics.
M	100 Yay!		FREE	This app will support the learning of numbers 1-100 and basic skip counting patterns using 2s, 5s and 10s. There are different levels of difficulty, including verbal and visual prompts.
M	100s Board		\$3.79	This 100s chart will help with skip counting patterns and multiplication. There are counters and different colour options to highlight certain numbers. Users can also play 'squeeze' or 'guess my number' using this app.
M	Numberline		FREE	Interactive number line that can be annotated to show number patterns, counting forwards and backwards, addition and subtraction and multiplication.
M	Numberlines		FREE	Offers practise counting forwards and backwards by 2s, 3s, 4s, and 5s using a number line and a jumping frog.
M	Friends of Ten		\$1.29	'Friends of 10' teaches basic addition and subtraction skills. As well as subitising (knowing there are 2 counters without counting) to 10, all using 10 frames.
M	Place Value MAB		\$2.49	Teaches students about basic place value using ones, tens and hundreds values using flats, longs and minis. There are varying levels of difficulty and different ways to show understanding.
M	Bright Ninja Tells Time		\$3.79	This app teaches all the basics needed to read analogue clocks. Starting with o'clock students earn karate belts to progress through levels all the way to minutes 'past' and 'to.'
M	Pizza Fractions 1		FREE	Pizza Fractions uses pizza diagrams sectioned into fractions and their written form in a fun matching game.
P	Google Earth		FREE	Is an interactive app allowing students to journey around the world. Each major city has an interactive 3D map of key structures or 'wonders of the world' to learn about.
P/L	Dragon Dictation		FREE	Converts natural speech to text. It is 5 times faster than typing and notes can be edited and uploaded to emails or other apps that accept pasting from a clipboard.
P/L	Bamboo Paper		FREE	Is a note taking app that allows users to type or write notes using a stylus or finger. You can add drawings or annotate diagrams or photos just like you would in a journal or diary.
