## School Update!

Good morning everyone, I hope this update finds you well. I would like to take this opportunity to let you know what is happening around the school while your children are at home!

### Teaching and Learning

Our teachers have been busily setting up an alternative learning platform in the event that Term 2 attendance at school is not possible. Teachers will use Google Classrooms, Mathletics, Reading Eggs, and Pobble 365 as well as some websites and activities that give variety and interest to the program. This will ensure that we can continue providing high quality learning. If you do not have internet access, we will provide a paper pack for your child, we will organise that as we progress towards Term 2.

We are aware that these platforms may not be familiar to you. We will be providing tutorials to support you in assisting your child to learn at home. Teachers will also be ready to assist you during learning time, we will provide contact details to you via email before next Term.

### Buildings and Grounds

At this point, our building project will continue whilst respecting the restrictions around social distancing and the number of people on our site.

We are taking the opportunity to renovate our Administration area first. We have spent the majority of the week moving out of this area and preparing to work from an alternative space. We will keep you posted as this progresses.

Asbestos removal begins next week. This is quite an undertaking and will mean that our office will be unattended during the holidays. Please feel free to email me directly if you have any questions or concerns.

### Staying in the loop

We will use Facebook and Sentral messaging to keep you informed of Term dates and any other information we feel you may want to know.

We are developing a tab on our Webpage to provide you with links that you may find useful. Please feel free to contact me if you have any questions or concerns.

Take care,

Vicky
